| **Trusted and engaging**   | • NPS scores in UK and Nordics remain market-leading.  
                              • DACH NPS process on track to launch in Q1 2023.                                                                                                                | Customer Net Promoter Score (NPS)

                                                                                                             Establish a standardised process for collecting customer NPS across all regions by end of 2023 and achieve above market rates ongoing.

                                                                                                             UK: 67 NPS  
                                                                                                             Q1:73/Q2:69/Q3:65/Q4:62  
                                                                                                             Nordics: 51 NPS  
                                                                                                             Q1:55/Q2:53/Q3:49/Q4:50  
                                                                                                             UK: 59 NPS  
                                                                                                             Q1:64/Q2:58/Q3:56/Q4:57  
                                                                                                             Nordics: 52 NPS  
                                                                                                             Q1:49/Q2:49/Q3:52/Q4:56  
                                                                                                             Group client customer Treatment Score

                                                                                                             >85%  
                                                                                                             97%  
                                                                                                             99% |
| **Personalised approach**  | Support for customers in vulnerable situations  
                              • We disclose our Group Policy and Pledges for Customers in Vulnerable Situations (CIVS) externally.  
                              • Formal training on the Group Policy and Pledges completed by 97% of colleagues across the UK and Nordics.  
                              • Coaching on CIVS is provided to all colleagues in all regions as a matter of course.  
                                                                                                             Enabling broader financial health  
                                                                                                             Continued to offer range of debt support tools and services:  
                                                                                                             • UK: 73% of customer engagements came in through digital channels in the UK (2021: 69%); 1.5m registered to manage account online (284,300 in 2022); 134,995 customer App registrations since July 2021 launch (102,310 in 2022); 56,000 explored a free credit score; 500 customers accessed the benefits calculator since its launch in July until 31 December 2022.  
                                                                                                             • DACH: 18% of our inbound customer interactions came through our digital enquiries process (an increase of 1 percentage point vs 2021).  
                                                                                                             • Nordics: 60% of our inbound customer interactions came through our digital customer services platform, an increase of 5 percentage points on 2021; 287,000 new users registered for our My Lowell Nordics portal that was visited by 460,000 customers 1.6 million times during the year.  
                                                                                                             Number of debt-free customers

                                                                                                             N/A  
                                                                                                             2 million  
                                                                                                             2 million |

See footnotes

Hoist UK customer, client and colleague data has been excluded for the 2022 reporting period due to the completion date falling within Q3 2022.

## Better for Society

### Sub-topic: Trends and supporting activities

#### Improve debt understanding

- **Raise consumer awareness of financial issues and support available**
  - 11.5 million consumers reached in the UK alone.
  - 2022 campaigns included managing hidden debt, removing the stigma of debt, and campaigns to promote consumer debt solutions and financial education.
  - TV awareness campaign in the UK.
  - Nordic campaign proposing solutions to issues identified by the payment indicator research, including 'opt out of credit' platform.

- **Contribute to wider knowledge through new insights**
  - Financial Vulnerability Index in the UK produced quarterly for the benefit of national policy makers and MPs.

#### Colleague development and wellbeing

- **Together with our people, developed and launched new Employer Value Proposition (EVP) – Together, We Go Further.**
  - Investment across the four pillars of our EVP (Sustainability, Hybrid working, Leadership development, and Career progression) has driven improved colleague engagement scores across all reported topics and enabled us to achieve our target for 'happy' ahead of our 2025 milestone.

#### Diverse and inclusive culture

- **Gender diversity**
  - While our % of senior female leaders is broadly unchanged in the past year, we have completed thorough talent and succession planning for all Leadership roles with new KPI.

- **Colleague volunteering**
  - Launched Annual Volunteering day to everyone based in the UK and Finland, representing 54% of our colleagues.

#### Footnotes

See footnotes.
**Better Ethics and Understanding**

1. Net Promoter Score (NPS) is a widely used market research metric which measures the extent to which our customers are willing to recommend our services to others, based on an annual average score. UK net promoter score includes customers who are being managed by Lowell only (e.g. it excludes customers being managed by Overseas or other third parties).

2. “Above market rates” is defined as scores above the financial services sector average for NPS in all the countries we operate, based on publicly available information.

3. Group client satisfaction score is a metric which measures the extent to which our clients think we treat our customers in the right way.

4. The number of customers who became debt free with Lowell, through any combination of paying off their accounts in full and/or having their accounts written off during the year.

5. Group colleague engagement score is a metric which measures how satisfied our clients are with Lowell’s performance. Each client responds on a 1-10 scale and these responses are aggregated up to group level, with each client having an equal weighting. A score of over 8.5 is deemed excellent (based on data provided by our UK Customer Experience partner TLF Research using their B2B benchmarking data using client data that has been captured over the last 25 years).

6. **Footnotes**

   1. **Better for Customers**

      1. Net Promoter Score (NPS) is a widely used market research metric which measures the extent to which our customers are willing to recommend our services to others, based on an annual average score. UK net promoter score includes customers who are being managed by Lowell only (e.g. it excludes customers being managed by Overseas or other third parties).

      2. “Above market rates” is defined as scores above the financial services sector average for NPS in all the countries we operate, based on publicly available information.

      3. Group client satisfaction score is a metric which measures the extent to which our clients think we treat our customers in the right way.

      4. The number of customers who became debt free with Lowell, through any combination of paying off their accounts in full and/or having their accounts written off during the year.

   2. **Better Ethics and Understanding**

      5. Group colleague engagement score is a metric which measures how positively our colleagues experience our values and way of working based on average scores relating to how happy they are working at Lowell and how likely they are to recommend us, as calculated by a third-party provider. For alignment to SASSI, this is stated as 71% of colleagues responding favourably on the topic of engagement.

      6. In 2022, eligible employees were defined as all employees in the Nordics, as biannual training on the Group Code of Conduct is due to start in the UK and DACH during 2023.

      7. The % shown is an aggregation of our regional scores and includes customers who are being managed by Lowell only (e.g. it excludes customers being managed by Overseas or other third parties).

5. **Better for Society**

   8. A reflection of how happy colleagues are working at Lowell, based on average scores, to demonstrate that we are building a positive workplace within society, as measured by an external third party.

   9. A reflection of how happy colleagues are working at Lowell, based on average scores, to demonstrate that we are building a positive workplace within society, as measured by an external third party.

   10. Gender of senior leaders shown as a % as of 31st December 2022.

   11. Group client satisfaction score is a metric which measures how satisfied our clients are with Lowell’s performance. Each client responds on a 1-10 scale and these responses are aggregated up to group level, with each client having an equal weighting. A score of over 8.5 is deemed excellent (based on data provided by our UK Customer Experience partner TLF Research using their B2B benchmarking data using client data that has been captured over the last 25 years).

   12. Lowell’s senior leadership population is defined as Executive team members and their Direct Reports, along with other significant roles, such as Operational Leaders, who are responsible for a significant number of colleagues. When calculating gender diversity for our senior team, contingent workers are included.

   13. We do not currently collect data on ethnic diversity in our workforce. In 2021, we were improving our data on ethnic diversity in the UK, while implementing other solutions to improve ethnic diversity and inclusion in our other regions, which have regulatory restrictions on data collection.

   14. Lowell’s senior leadership population is defined as Executive team members and their Direct Reports, along with other significant roles, such as Operational Leaders, who are responsible for a significant number of colleagues.

   15. Attrition data is calculated on a 12-month rolling period as of the effective date and excludes temporary workers.

   6. **Footnotes**

      16. **Better for Society**

         16. Emissions data covers Scope 1 and 2 emissions for all of Lowell’s regions: the UK, DACH, and Nordics. Where actual activity data was unavailable, suitable estimations were made. All GHG figures were calculated in line with the GHG Protocol. Lowell has not reported GHG data for 2022 due to issues collecting data from landlords in our DACH offices.

      17. Waste data is unavailable for our DACH and Nordics regions because Lowell is not in control of waste management in its offices there.

      18. The % of colleagues who we deem to have been engaged with our Environment Involve Group, members of our Sustainability Development Group, active members of our Sustainability Community on Yammer, attendees of our Senior Leader Call, Senior Leaders who have a bespoke performance objective related to the environment, and attendees of our Lowell Lives interview in March 2022.

   7. **Better for Society**

      18. The % of colleagues who we deem to have been engaged with our Environment Involve Group, members of our Sustainability Development Group, active members of our Sustainability Community on Yammer, attendees of our Senior Leader Call, Senior Leaders who have a bespoke performance objective related to the environment, and attendees of our Lowell Lives interview in March 2022.
